## Wedding Flowers Guide and Price List

## Gorgeous, seasonal, scented wedding flowers grown by Frances (that's me) in Cumbria.....

If thinking about flowers is new to you, don't worry! If you don't know the names, it doesn't matter. You don't need to – I've got that covered for you!

Concentrate on the colours you like, and the feelings or effects you want to see and feel with your wedding flowers.

I'm not a traditional florist – the majority of the flowers I use are grown in my own cutting garden, supplemented when necessary with seasonal flowers from fellow British growers. I cannot promise to provide a specific variety of flower for your wedding, though I do work and grow to colour palettes.

My flowers are sustainably grown (peat and chemical free), my floristry methods are “eco friendly”. Everything used in your wedding flowers can be reused, recycled or composted.

Have a browse of my Instagram and Facebook (details on the last page) or view my seasonal guide on the website to get an idea of what's in season when and learn more about my ethos and techniques.

# This is how we do weddings here at Clodhopper Blooms....

First think about your colour palette. Eg. white and green, pinks, pastels, blue purple and white, autumn hues.

You might be thinking you just want the whole garden – a mix of everything, that's fine too!

Think about what kind of vibe inspires you; for example, do you want to feel as though you've walked through a meadow and gathered armfuls of flowers, or you're having a magical moment in a woodland....

Share with me any photos/Pinterest boards/ideas etc that have inspired you!

Consider your budget and how much involvement you want with your flowers.

The following pages will list what are some of your options if you choose to have your flowers arranged for you.

There is no minimum spend, and a deposit of £100 will secure you the date.

An option for those of you who wish to add an element of your own creativity to the wedding, is "bouquets & buckets" - I supply you with ready made bouquets and buttonholes, and buckets of loose flowers and foliage so you can create your own venue arrangements.

(prices include hire of vessels where applicable)

Bucket of seasonal mixed flowers & foliage for creating your own arrangements £66

## Other things to think about...

If you have your heart set on something not listed here, do get in touch! Things like arches for example are quite specific to your venue, or a hanging hoop for the ceiling.....pew end flowers for churches, and chair end flowers for barn weddings....

**Ribbons** -Standard finish is buttonholes/corsages with brown string and bouquets with hessian band, however, I can also provide linen ribbons to a colour of your choice for an extra cost.

**Wedding Bouquets** come with a jar to use as a water source, so you can keep your bouquet hydrated throughout the day.

**Gift Bouquets** at £35 are a popular extra. These are the typical Clodhopper Blooms "best of the cutting garden" mix of flowers and foliage presented with a water source in a brown paper bag

**Delivery of flowers** to your venue and collection of vessels, etc the following day.

**Delivery to venues** within 10 miles of Kirkby Stephen is free, beyond that is charged - please contact me to check prices.
